

Artwork requirements - Using QuarkXPress 6, Illus CS, Freehand v10, Photoshop 7, Indesign 3.0, CDR 12.

1. You can do artwork at half, quarter final size* - but if the art is done at:

half size, then the resolution of the images must be approx. 200dpi,
quarter size, then the resolution of the images must be approx. 400dpi.

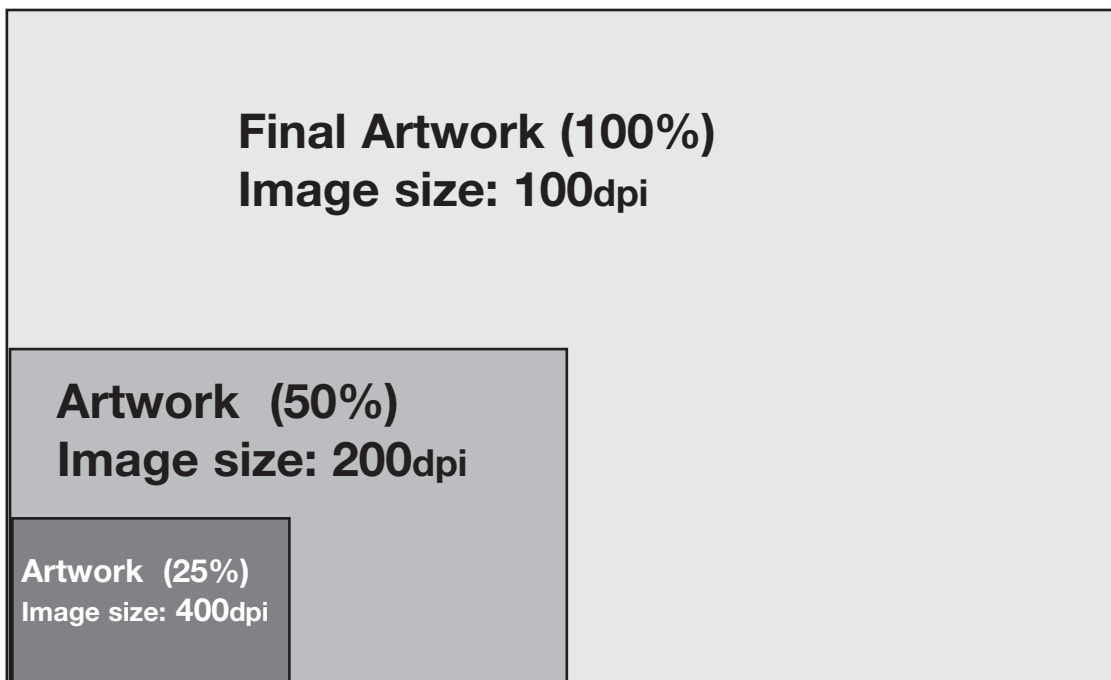

See below for example, if still unsure, please phone our office

*Photoshop files at **final size (print size)** are best at 100dpi, CMYK saved as Tiff (without LZW compression) or as Photoshop EPS (JPEG max. quality).

For vector work save files at no less than 50% final size to prevent flatness errors. All text is best converted to Outlines/Curves to avoid font issues. Ensure ALL links are included.

2. Save on CD, 250/100 MB Zip, Floppy - include all fonts (screen & postscript), all image and vector files. Provide output report from QXPress inc. all PMS colours, fonts, eps files etc..

3. Each job must be accompanied by colour proof. This will be retained for our records. Provide full documentation for return of disks/artwork.
